CAREER OBJECTIVE

Seeking an Internship position to leverage my programming skills and hands-on experience in machine learning models, mobile, and desktop application development. I am eager to contribute to real-world projects, optimize system performance, and continuously enhance my technical capabilities in a professional environment.

EDUCATION

- Ho Chi Minh City University of Industry and Trade (HUIT)
- Major: Information Technology (2023 - Current)

PROJECTS

- Small Object Detection with Multi-scale CNN [04/2026 - 06/2026]
 - Developed an object detection model using Faster R-CNN with a ResNet50 backbone, integrating Spatial Pyramid Pooling (SPP) and Feature Pyramid Network (FPN) to enhance multi-scale feature extraction for small objects.
 - Processed a custom subset of the COCO 2017 dataset and applied advanced training techniques including AdamW optimizer, CosineAnnealingLR, and Mixed Precision Training.
 - Utilized TensorBoard for training metrics visualization and implemented early stopping and checkpointing mechanisms based on Mean Average Precision (mAP) evaluation.
 - Built an interactive user interface using Gradio to display real-time predictions, processing times, and detected object counts.
 - Extended the model application to video processing, enabling frame-by-frame object detection and bounding box generation on video files.
- Personal Finance Management Application [02/2026 - 06/2026]
 - Developed a cross-platform application using Flutter (Dart).
 - Integrated SQLite and APIs for efficient data management.
 - Implemented advanced features including receipt photography and ZIP data backup.
- Student Attendance Management Application [08/2025 - 11/2025]
 - Designed and developed a system to track and manage student attendance.
 - Developed using C# Windows Forms (WinForms), utilizing SQL Server for data storage and integrating various APIs for extended functionality.

SKILLS

- Programming Languages: C#, Flutter (Dart), Python, SQL
- Tools & Frameworks: SQL Server, Git, Github, Unit Test
- Microsoft Office: Excellent
- Languages: English (Fair), Vietnamese (Native)
